

THE *Rising* SUN *Garden*

We have updated our systems and are now taking manual food and drink orders for all our diners eating in our rear garden. Once initial drinks have been ordered from your waiter you may still use the phone app risingsun.f4food.net for additional drinks or grab the attention of any waiting staff. To limit guests walking about, avoid using the pub bar, while seated in this area. Please stack your plates and cutlery and leave at the end of the table, after you've finished.
